

Field Interviewer™

The Infotech Field Interviewer™ app is a convenient companion tool for the AASHTOWare Project Civil Rights & Labor™ module, allowing entry of labor compliance interview (on-site interview) data from mobile devices. Like the Infotech Mobile Inspector™ app, Field Interviewer requires minimal training and works great on tablets or smartphones. You don't need to be connected to the Internet at the time of collection; Field Interviewer stores collected data on your device, and submits that data to the agency environment once a secure connection is established.

SYNC Service for AASHTOWare Project™

The Field Interviewer app uses the SYNC Service to securely transfer data and connect to the AASHTOWare Project software. AASHTO member and associate member agencies can license the SYNC Service from AASHTO. Please refer to the AASHTOWare Catalog on www.aashtoware.org.

Collect field interview data with a mobile device, including:

- + Summary findings
- + Interview comments
- + Photos
- + Employees interviewed
- + Wage rates paid and job classifications worked for each employee

Capture and validate field interviews

Upload data to the AASHTOWare Project Civil Rights & Labor module
